BEIJING, April 26, 2018 (GLOBE NEWSWIRE) – iQIYI, Inc. (NASDAQ: IQ) ("iQIYI" or the "Company"), an innovative market-leading online entertainment service in China, today announced its unaudited financial results for the first quarter ended March 31, 2018.

#### First Quarter 2018 Highlights

- Total revenues were RMB4.9 billion (US\$777.6 million), representing a 57%1 increase from the same period in 2017.
- Operating loss was RMB1.1 billion (US\$169.4 million) and operating loss margin was 22%, compared to operating loss of RMB1.0 billion and operating loss margin of 34% in the same period in 2017.
- Net loss attributable to iQIYI was RMB395.7 million (US\$63.1 million), compared to RMB1.1 billion in the same period in 2017. Fully diluted net loss per ordinary share was RMB1.97 (US\$0.31), compared to RMB5.37 in the same period in 2017.

"We are pleased to report a set of solid results for the first quarter of 2018," commented Dr. Yu Gong, Founder and Chief Executive Officer of iQIYI. "Both of our major business pillars, advertising services and membership services, generated significant growth driven by our premium content, especially a series of successful self-produced variety shows launched during the quarter. Our recent IPO positions us well for the exciting future ahead as iQIYI now enjoys higher brand recognition with increasingly more partners and artists around the world seeking to collaborate with us. Going forward, we will continue to strategically allocate our resources and bandwidth to original content production and technology innovation as we aspire to become a technology-based entertainment giant."

"Our strong first quarter performance was marked by a 57% year-over-year growth in total revenues, and better-than-expected improvement on our bottom line," commented Xiaodong Wang, Chief Financial Officer of iQIYI. "The financial results reflect enhanced monetization and operating efficiency across our various business lines during the quarter. With the capital raised via our IPO, we are more confident than ever to capture the tremendous opportunities in the fast-growing entertainment industry and deliver long-term value to our shareholders."

#### Footnote:

[1] Starting from January 1, 2018, iQIYI adopted a new revenue accounting standard (ASC 606), which reclassifies value added tax from the cost of revenues to net against revenues. To increase comparability of operating results and help investors better understand our business performance and operating trends, 2017 net revenues have been used to calculate all percentage changes in revenues and operating loss margins. 2017 net revenues are defined as gross revenues under legacy GAAP after the deduction of value added-taxes, which is presented on the same basis as 2018 and going forward.

#### First Quarter 2018 Financial Results

Total revenues reached RMB4.9 billion (US\$777.6 million), representing a 57% increase from the same period in 2017.

Membership services revenue was RMB2.1 billion (US\$334.0 million), representing a 67% increase from the same period in 2017. The increase was primarily driven by a series of premium original content titles released in the first quarter of 2018 as well as various initiatives we rolled out during the Chinese New Year holiday.

Online advertising services revenue was RMB2.1 billion (US\$336.5 million), representing a 52% increase from the same period in 2017. The increase was primarily due to our improved efficiency in the monetization of brand advertising business, driven by our strong and expanding library of self-produced content, as well as the robust growth of our in-feed advertising business.

Content distribution revenue was RMB266.7 million (US\$42.5 million), representing a 44% increase from the same period in 2017. The increase was primarily due to several major drama series titles that we sub-licensed to external partners in the first quarter of 2018.

Other revenues were RMB405.0 million (US\$64.6 million), representing a 51% increase from the same period in 2017. The increase was primarily driven by strong performance across various other business lines in the first quarter of 2018.

Cost of revenues was RMB4.8 billion (US\$772.9 million), representing a 44% increase from RMB3.4 billion after deducting the value added tax in the same period in 2017. The increase was primarily driven by content costs due to higher amortization of licensed copyrights and produced content, which was in turn caused by our increased investment in content offerings. Content costs as a component of cost of revenues were RMB3.9 billion (US\$617.0 million), representing a 54% increase from the same period in 2017.

Selling, general and administrative expenses were RMB704.2 million (US\$112.3 million), representing a 42% increase from the same period in 2017. The increase was primarily due to increased channel and marketing expenses associated with the pre-installation of iQIYI's app, as well as brand and content promotional expenses.

Research and development expenses were RMB387.3 million (US\$61.7 million), representing a 44% increase from the same period in 2017, primarily due to increased headcount in research and development.

Operating loss was RMB1.1 billion (US\$169.4 million), compared to operating loss of RMB1.0 billion in the same period in 2017. Operating loss margin was 22%, compared to operating loss margin of 34% in the same period in 2017.

Total other income was RMB666.2 million (US\$106.2 million), compared to total other expenses of RMB79.1 million during the same period of 2017. In the first quarter of 2018, we recognized RMB186.6 million (US\$29.7 million) of fair value gain arising from one of our private company investments in accordance with the new financial instruments accounting standard adopted on January 1, 2018 and RMB474.2 million (US\$75.6 million) of foreign exchange gain arising from the appreciation of the Renminbi against the U.S. dollar.

Loss before income taxes was RMB396.2 million (US\$63.2 million), compared to RMB1.1 billion in the same period in 2017.

Income tax expenses were RMB0.5 million (US\$0.1 million), compared to income tax expense of RMB0.8 million in the same period in 2017.

Net loss attributable to iQIYI was RMB395.7 million (US\$63.1 million), compared to RMB1.1 billion in the same period in 2017. Fully diluted net loss per ordinary share was RMB1.97 (US\$0.31), compared to RMB5.37 in the same period in 2017.

As of March 31, 2018, the Company had cash, cash equivalents and short-term investments of RMB896.1 million (US\$142.9 million).
