Exhibit 99.1—Press Release

**iQIYI Announces Fourth Quarter and Fiscal Year 2018 Financial Results**

BEIJING, February 21, 2019 – iQIYI, Inc. (NASDAQ: IQ) (“iQIYI” or the “Company”), an innovative market-leading online entertainment service in China, today announced its unaudited financial results for the fourth quarter and fiscal year ended December 31, 2018.

**Fourth Quarter 2018 Highlights**

- Total revenues were RMB7.0 billion (US\$1.0 billion<sup>1</sup>), representing a 55%<sup>2</sup> increase from the same period in 2017.
- Operating loss was RMB3.3 billion (US\$483.5 million) and operating loss margin was 47%, compared to operating loss of RMB856.1 million and operating loss margin of 19% in the same period in 2017.
- Net loss attributable to iQIYI was RMB3.5 billion (US\$505.7 million), compared to net loss attributable to iQIYI of RMB612.4 million in the same period in 2017. Diluted net loss attributable to iQIYI per ADS was RMB4.83 (US\$0.70).
- The number of total subscribing members was 87.4 million as of December 31, 2018, 98.5% of whom were paying subscribing members. This compares to 50.8 million of total subscribing members as of December 31, 2017, up 72% year over year.

**Fiscal Year 2018 Highlights**

- Total revenues were RMB25.0 billion (US\$3.6 billion), representing a 52% increase from 2017.
- Operating loss was RMB8.3 billion (US\$1.2 billion) and operating loss margin was 33%, compared to operating loss of RMB4.0 billion and operating loss margin of 24% in 2017.
- Net loss attributable to iQIYI was RMB9.1 billion (US\$1.3 billion), compared to net loss attributable to iQIYI of RMB3.7 billion in 2017. Diluted net loss attributable to iQIYI per ADS was RMB17.01 (US\$2.45).

“We delivered another quarter of solid growth and closed out the year on a strong footing with over 87 million total subscribing members,” commented Dr. Yu Gong, Founder, Director and Chief Executive Officer of iQIYI. “As we enter 2019, we are confident in generating growth across the board, led by membership services which has demonstrated continued momentum. We maintain our strategic focus on producing original premium content, and will continue to advance our technology innovation and nurture our ecosystem to fully leverage the tremendous IP value in our content. With an exciting new year ahead, we look forward to further strengthening our platform and continuing our journey to become a technology-based entertainment giant.”

“We are pleased to report strong top-line growth for fiscal year 2018 with total revenues increasing 52% year-over-year to RMB25 billion,” commented Mr. Xiaodong Wang, Chief Financial Officer of iQIYI. “Membership business continued to be the main engine driving our growth, while we further broadened and diversified other revenue streams. 2018 was also a transition year for us, as we devoted more resources towards producing original content which added pressure to our margins. We believe our investment in premium content will prove to be very rewarding and help better position the Company for long-term growth.”

Footnotes:

- [1] This announcement contains translations of certain RMB amounts into U.S. dollars at specified rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB6.8755 to US\$1.00, the effective noon buying rate as of December 31, 2018, in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York.
- [2] Starting from January 1, 2018, iQIYI adopted the new revenue accounting standard (ASC 606), which reclassifies value added tax from cost of revenues to net against revenues. To increase comparability of operating results and help investors better understand our business performance and operating trends, 2017 net revenues have been used to calculate all percentage changes in revenues and operating loss margins. 2017 net revenues are defined as gross revenues under legacy GAAP after the deduction of value added-taxes, which is presented on the same basis as 2018 and going forward.

#### **Fourth quarter 2018 Financial Results**

Total revenues reached RMB7.0 billion (US\$1.0 billion), representing a 55% increase from the same period in 2017.

Membership services revenue was RMB3.2 billion (US\$465.6 million), representing a 76% increase from the same period in 2017. The increase resulted from the strong growth in the number of subscribing members, driven by our premium content as well as various operational initiatives during the quarter.

Online advertising services revenue was RMB2.2 billion (US\$320.5 million), representing a 9% increase from the same period in 2017. The increase was primarily attributable to the growth of brand advertising business, driven by our innovative advertising solutions associated with expanding library of self-produced content.

Content distribution revenue was RMB522.0 million (US\$75.9 million), representing a 137% increase from the same period in 2017. The significant increase was primarily attributable to a number of premium content titles that we distributed during the quarter.

Other revenues were RMB1.1 billion (US\$160.1 million), representing a 129% increase from the same period in 2017. The increase was driven by strong performance across various vertical business lines as well as the consolidation of Skymoons.

Cost of revenues was RMB8.5 billion (US\$1.2 billion), representing a 100% increase from RMB4.3 billion, which was the cost of revenues after deducting the value added tax in the same period in 2017. The increase was primarily driven by higher content costs as we continue to invest in building our comprehensive and diversified content library. Content costs as a component of cost of revenues were RMB6.5 billion (US\$943.4 million), representing a 97% increase from the same period in 2017.

Selling, general and administrative expenses were RMB1.2 billion (US\$177.7 million), representing a 58% increase from the same period in 2017. This was primarily due to increased marketing spending in channel coverage and content related promotion, as well as higher share-based compensation expenses.

Research and development expenses were RMB607.5 million (US\$88.4 million), representing a 67% increase from the same period in 2017, primarily due to the increase of personnel-related compensation expenses.

Operating loss was RMB3.3 billion (US\$483.5 million), compared to operating loss of RMB856.1 million in the same period in 2017. Operating loss margin was 47%, compared to operating loss margin of 19% in the same period in 2017.

Total other expense was RMB34.8 million (US\$5.1 million), compared to total other income of RMB233.8 million during the same period of 2017. In the fourth quarter of 2018, we recognized RMB73.8 million (US\$10.7 million) of foreign exchange loss arising from the depreciation of the Renminbi against the U.S. dollar.

Loss before income taxes was RMB3.4 billion (US\$488.6 million), compared to loss before income taxes of RMB622.3 million in the same period in 2017.

Income tax expense was RMB79.5 million (US\$11.6 million), compared to income tax benefit of RMB9.9 million in the same period in 2017.

Net loss attributable to iQIYI was RMB3.5 billion (US\$505.7 million), compared to net loss attributable to iQIYI of RMB612.4 million in the same period in 2017. Diluted net loss attributable to iQIYI per ADS was RMB4.83 (US\$0.70) for the fourth quarter of 2018.

As of December 31, 2018, the Company had cash, cash equivalents, restricted cash and short-term investments of RMB12.8 billion (US\$1.9 billion). In December 2018, we closed the offering of US\$750 million in aggregate principal amount of convertible senior notes, and received aggregate net proceeds of approximately US\$736.2 million after deducting discounts and commissions and offering expenses from the offering.

### **Fiscal Year 2018 Financial Results**

Total revenues reached RMB25.0 billion (US\$3.6 billion), representing a 52% increase from 2017.

Membership services revenue was RMB10.6 billion (US\$1.5 billion), representing a 72% increase from 2017. The increase was primarily attributable to the robust growth in the number of subscribing members, driven by our premium content, especially our original blockbuster titles, as well as various operational initiatives during the year.

Online advertising services revenue was RMB9.3 billion (US\$1.4 billion), representing a 21% increase from 2017. The increase was primarily due to the improved efficiency in the monetization of advertising business, driven by our high-quality content offerings, especially original content, as well as our growing user base and engagement level.

Content distribution revenue was RMB2.2 billion (US\$314.5 million), representing a 92% increase from 2017. The growth was driven by both quantity and quality of the premium content titles that we distributed during the year.

Other revenues were RMB2.9 billion (US\$418.2 million), representing a 105% increase from 2017. The increase was driven by strong performance across various vertical business lines, as well as the consolidation of Skymoos.

Cost of revenues was RMB27.1 billion (US\$3.9 billion), representing a 65% increase from RMB16.4 billion, which was the cost of revenues after deducting the value added tax in 2017. The increase was primarily driven by higher content costs as we continue to invest in building our comprehensive and diversified content library. Content costs as a component of cost of revenues were RMB21.1 billion (US\$3.1 billion), representing a 67% increase from 2017.

Selling, general and administrative expenses were RMB4.2 billion (US\$606.2 million), representing a 56% increase from 2017. This was primarily due to increased marketing spending in channel coverage and content related promotion, as well as higher share-based compensation expenses.

Research and development expenses were RMB2.0 billion (US\$290.1 million), representing a 57% increase from 2017, primarily due to the increase of personnel-related compensation expenses.

Operating loss was RMB8.3 billion (US\$1.2 billion), compared to operating loss of RMB4.0 billion in 2017. Operating loss margin was 33%, compared to operating loss margin of 24% in 2017.

Total other expense was RMB676.2 million (US\$98.3 million), compared to total other income of RMB208.5 million during 2017. The majority of the year-over-year variance came from foreign exchange loss and gain we recognized in 2018 and 2017 respectively, due to the fluctuation of exchange rate between Renminbi and the U.S. dollar. The remaining variance was attributable to lower interest expense and higher interest income as a result of our IPO and other financing activities in 2018, as well as the recognition of fair value gain arising from our private company equity investments in accordance with the new financial instruments accounting standard adopted on January 1, 2018.

Loss before income taxes was RMB9.0 billion (US\$1.3 billion), compared to loss before income taxes of RMB3.7 billion in 2017.

Income tax expense was RMB78.8 million (US\$11.5 million), compared to income tax benefit of RMB7.6 million in 2017.

Net loss attributable to iQIYI was RMB9.1 billion (US\$1.3 billion), compared to net loss attributable to iQIYI of RMB3.7 billion in 2017. Diluted net loss attributable to iQIYI per ADS was RMB17.01 (US\$2.45) for 2018.

### **Financial Guidance**

For the first quarter of 2019, iQIYI expects total net revenues to be between RMB6.80 billion (US\$989.6 million) and RMB7.10 billion (US\$1.0 billion), representing a 40% to 46% increase from the same period in 2018. This forecast reflects iQIYI's current and preliminary view, which is subject to substantial uncertainty.
